Education

Veermata Jijabai Technological Institute (VJTI)   **Jan 2022 – 2026**
Bachelor of Technology in Textile Technology   *Mumbai, India*
- CPI: 7.25

Relevant Coursework

- Web Development
- Data Structures
- Software Methodology
- Internet Technology
- Database Management
- Systems Programming

Projects

FarmWise - Crop Detection Web App | *Node.js, MongoDB, TensorFlow*   **July 2024 – Present**
- Built a platform for analyzing crop images to detect diseases using AI models.
- Delivered actionable insights for farmers through a modern, responsive design with animations.

VAULTY - Web Banking App | *Node.js, MongoDB, Tailwind CSS*   **Sep 2024**
- Created a secure banking app with real-time financial tracking and authentication.
- Deployed on Vercel: vaulty-omega.vercel.app.

Scheduler Web App | *Next.js, TypeScript, Tailwind CSS*   **Oct 2024**
- Developed a scheduling app for task and appointment management.
- Ensured a seamless UI/UX and deployed on Vercel: scheduler-calendar.vercel.app.

Task Manager Web App | *Next.js 14, TypeScript, Tailwind CSS*   **Nov 2024**
- Built a task management app with intuitive design, animations, and iconography.
- Deployed on Vercel for streamlined task organization and prioritization.
- Accessible at: tskman.cyth.me.

Technical Skills

Languages: TypeScript, HTML, CSS, JavaScript, Python, Java, SQL, C++
Frameworks: Node.js, Express.js, TensorFlow, Tailwind CSS, ShadCN
Libraries: ReactJS, NextJS
Tools: VS Code, Git, MongoDB, Firebase, Google Cloud Platform
Technologies: Linux, Docker,

Leadership / Extracurricular

Event Head, ECELL, VJTI   **Spring 2023**
Veermata Jijabai Technological Institute   *Mumbai, India*
- Organized workshops and coding competitions, helping students improve web development skills.
- Led a team to create a web platform for university events, increasing engagement by 25%.
